Ethical Hunting is Everyone's business

"Ethics is not only about what you should not do, but what you should do. Offer to lend a hand to another hunter if they are retrieving downed game, share information on hunting conditions and engage in helpful conversation with beginners you happen to meet."

Hunting is a heritage we all share and together we can continue to share it for generations to come."

Brian Waking, Game Branch Chief

Arizona Game and Fish Department

What are Ethics?

Ethics generally relate to fairness, respect and responsibility. Aldo Leopold once said ethical behavior is doing the right thing when no one else is watching even when doing the wrong thing is legal. They are the personal unwritten rules that we value. When we talk about an ethical hunter their behaviors an example of the sportsmanship they demonstrate in the field.

Ethics with Non-hunters

Show respect for other users of the land and their property. They possess the same rights as you do to use the lands; Be courteous to non-hunters when transporting your game from the field. Transport animals discretely; Don't leave remains of field dressing in places where it is easily visible. Respect other people that may be walking by; clean up to the best of your ability before entering into a public place when returning from a hunt if you cannot change cloths. Present a professional image; Take tasteful photographs of your hunt; Invite someone new to come hunting with you.

Littering while hunting or fishing are violations which may result in criminal and /or fines. It only takes a few minutes at the end of the hunt to pick up which keeps the area clean for other users, protects wildlife and will help preserve Colorado River Indian Tribe's hunting tradition for future generations.

Section 1-501. Unlawful Acts; It is unlawful for any person to:
